PERSONAL STATEMENT:

The Columbus Bar Association has been an integral part of my legal career and development from law student to attorney. I was first introduced to the CBA in 2018 as a 1L at Capital University Law School when I participated in the Minority Clerkship Program. After being matched with an employer through this program, and learning many valuable networking and career development skills along the way through the CBA's clerkship program, I knew that I would want to become more involved in the CBA after law school. For the past three years I have had the pleasure of working with the CBA as a part of the Minorities in the Law Professional Development Network. While I have greatly enjoyed this time connecting with law students and lawyers in the Columbus area and working with the CBA staff, this Network is only a small part of what the CBA does, and I am ready to contribute more to this organization that has already given me so much. The Columbus legal community and the Columbus Bar Association hold a special place in my heart, and I am committed to doing what is in my power to help support and advance our legal community and the Columbus Bar. It is for this reason that I am running to be a member of the Board of Governors of the Columbus Bar Association.
